

ESCUELA INTERNACIONAL DE ASTROBIOLOGÍA
INTERNATIONAL ASTROBIOLOGY SUMMER SCHOOL

Earth's Extremophiles and Extraterrestrial Habitability

UIMP, Santander, Spain, June 22-26, 2009

NASA Astrobiology Institute

Centro de Astrobiología

School structure

Grand Prismatic Spring, USNPS

A week of lectures from international experts, plus round-table discussions, student projects, night-sky observations, and a half-day field trip to a nearby site of astrobiological interest.

Accommodations and meals

On-site accommodation and all meals are provided at the Santander campus of the Spanish national university, UIMP.

Scholarships and travel

Scholarships covering travel costs, school fees, accommodation and meals are provided by NAI for approximately 10 American students. Additional opportunities are available for students of other nationalities.
