# Alternative Earths

A MEMBER OF THE NASA ASTROBIOLOGY INSTITUTE

Exploring four billion years of persistent habitability on a dynamic early Earth...

...to guide NASA's mission-specific search life on distant worlds.

## EXPANDING UCR'S ASTROBIOLOGY RESEARCH MISSION

### ALTERNATIVE EARTHS ASTROBIOLOGY CENTER

#### PROPOSED SCOPE OF FACULTY EXPERTISE AT UCR

<b>EARLY EARTH RESEARCH</b>	<b>OBJECTIVES</b>	<b>CURRENT</b>   Define a comprehensive catalog of diverse habitable states that existed on Earth over its 4.5-billion-year history to use as a roadmap for NASA's mission-specific searches for habitable worlds.		<b>FUTURE</b>   Detect planets outside our solar system, assess their habitability as informed by modeled Earth states, and ultimately find evidence for life.		<b>EXOPLANET RESEARCH</b>
	<b>FACULTY EXPERTISE</b>	<i>UCR is a known as a world leader:</i>	<i>UCR relies on partner institutions:</i>	<i>UCR relies on other active teams of the NASA Astrobiology Institute</i>		
		<b>Biogeochemistry</b> Track oxygenation and other chemical signatures of habitability and life.	<b>Planetary Geology</b> Explore planetary-scale controls on habitability and environmental change.	<b>Exoplanet Detection</b> Detect planets outside our solar system with access to current and upcoming NASA missions and ground-based instruments		
		<b>Paleontology &amp; Organic Chemistry</b> Track evolving life.	<b>Atmospheric Modeling</b> Model the atmospheres of Earth's habitable states.	<b>Exoplanet Characterization</b> Characterize habitability of exoplanets using their spectroscopic signatures.		
		<b>UCR Alternative Earths Team of the NASA Astrobiology Institute</b>		<b>Other Teams of the NASA Astrobiology Institute</b>		

# OUTREACH

Cosmic Thursdays

## ALTERNATIVE EARTHS?

WHAT OUR PLANET'S HISTORY MAY TELL US ABOUT LIFE IN THE UNIVERSE

Prof. Timothy Lyons  
Earth Sciences Department UC Riverside

**THURSDAY OCTOBER 15 - 7:00 PM**  
Bourns Hall - Room A265  
Free & open to the public  
Suggested parking in lot 10  
Information: mariodlw@ucr.edu

[www.astro.ucr.edu](http://www.astro.ucr.edu)

ASTRONOMY Department of Earth Sciences Department of Physics and Astronomy UCRIVERSIDE

Cosmic Thursdays

## EVOLUTION OF LIFE

TRACKING USING ANCIENT LIPID BIOMARKERS PRESERVED IN PETROLEUM & ROCKS

Prof. Gordon Love  
Earth Sciences Department UC Riverside

**THURSDAY NOVEMBER 12 - 7:00 PM**  
Bourns Hall - Room A265  
Free & open to the public  
Suggested parking in lot 10  
Information: mariodlw@ucr.edu

[www.astro.ucr.edu](http://www.astro.ucr.edu)

ASTRONOMY Department of Earth Sciences Department of Physics and Astronomy UCRIVERSIDE

Cosmic Thursdays

## MOPS, ROPES & BATHMATS

Earth's enigmatic earliest multicellular animals

Prof. Mary Droser  
Department of Earth Sciences UC Riverside

**THURSDAY DECEMBER 3 - 7:00 PM**  
Bourns Hall - Room A265  
Free & open to the public  
Suggested parking in lot 10  
Information: mariodlw@ucr.edu

[www.astro.ucr.edu](http://www.astro.ucr.edu)

ASTRONOMY Department of Earth Sciences Department of Physics and Astronomy UCRIVERSIDE

## COMMUNITY ENGAGEMENT

# MERCURY

## TRANSIT & BEYOND

**5·9·16**

**TELESCOPE VIEWING**

- Prof. Bahram Mobasher (UCR)
- UCR Parking Lot 30
- 8:30 to 11:30 AM

**PUBLIC TALK**

- Prof. Stephen Kane (SFSU)
- UCR Extension Center
- 6:00 to 7:00 PM

Information: 951-255-9706 / [www.astro.ucr.edu](http://www.astro.ucr.edu) / [astrobiology@ucr.edu](mailto:astrobiology@ucr.edu)  
Free parking & open to the public

## EDUCATION & REGIONAL COLLABORATION

# JPL

NASA's Minority University Research and Education Project (MUREP) selected UC Riverside as one of 10 minority serving universities (out of 76 proposals) for 5 years of funding to support research collaboration with JPL.
